

Wisconsin Department of Veterans Affairs

Tony Evers, Governor | Mary M. Kolar, Secretary

October 21, 2020

Dear King Members, Friends, and Family:

Based on information released yesterday by the Department of Health Services, in Wisconsin, the daily average for COVID-19 cases has nearly doubled in the last month and more than quadrupled in the last two months.

The trend is going in the wrong direction. With cases of COVID-19 rising in the Waupaca area, we are impacted, too. Members and staff continue to test positive for COVID-19, but we are also seeing some recoveries. Since yesterday, we've had five members test positive and seven recover, and two staff test positive. Yesterday, sadly, another member who had COVID-19 passed away. We are all working very hard to care for and help members recover and are all deeply saddened when one of our heroes passes.

Stay home as much as possible, wear a mask when out and maintain at least six feet from others, and wash your hands frequently.

Sincerely,

Tammy Servatius, Commandant
